

Audio System

Audio System with Optical Audio Cable

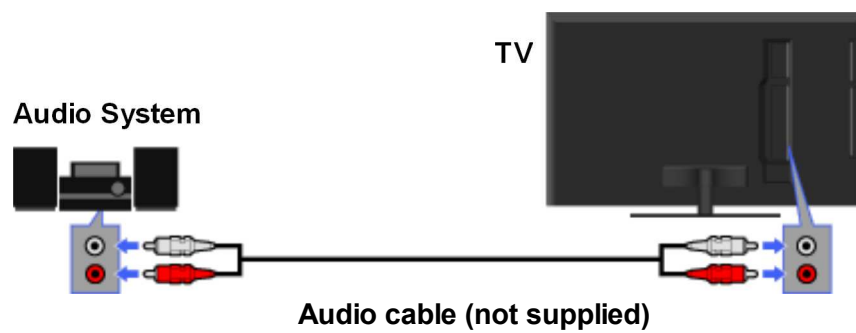

Audio System with HDMI Cable

- When connecting a digital audio system that is compatible with “Control for HDMI” (“BRAVIA” Sync) and Audio Return Channel (ARC) technology, connect to HDMI IN 1 with an HDMI cable. If connecting a system that is incompatible with “Control for HDMI” or Audio Return Channel, an additional audio connection via DIGITAL AUDIO OUT (OPTICAL) is necessary.

Audio System with Audio Cable

- When using an external audio system, audio out of the TV can be controlled using the TV's remote control.
